

# Helpful Software for Scouting

There are a number of freeware and commercial software products that have been developed to enhance your unit's Scouting efforts. This list is definitely not all inclusive. These are products that various units have let us know they are using within the Council.

**No endorsement of these products are intended or implied by these links by the either the Boy Scouts of America or the Northeast Illinois Council.**

- Indicates software that has passed the BSA National's ScoutNet Certification and found to be compatible with the National /Council level management program.
